The Wednesday Walk on Thursdays

46 – Wadsley Top from Stadium – 2.6 miles

A steady climb to the top of Wadsley then a steady descent back to the Stadium. Shorter options abound, but they miss out the best (and steepest) bit.

Anticlockwise

Basically the reverse of the walk we did a few weeks ago, with a return through the houses to give a gentler slope.

Shorter walk is up any of the side-streets, depending on how far you want to go.

Risks

- Traffic on the road crossings, some busy roads.
- Steep climb and shallower descent on main walk
