

Step Out at SWFC

The Wednesday Walk on Thursdays

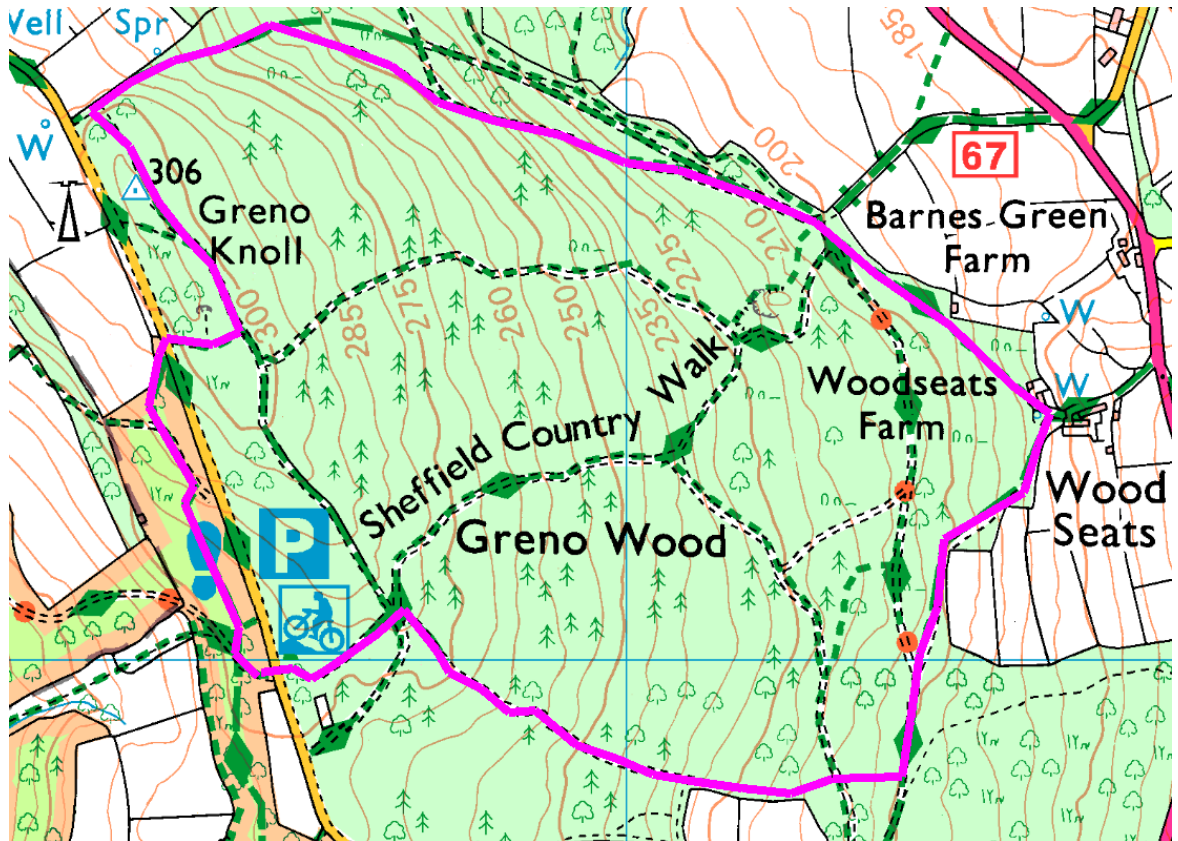

56 – Woodseats – 2.4 miles

A shady walk for a sunny day. Starting in the Greno Woods car park, we walk down to Woodseats (or Wood Seats) and back up the other side.

Anticlockwise

From the car park cross the road, head into the wood and carry on to the crossroads. Bear right (downhill) and carry on to the end of this path where it joins the main track at a T. Turn left then, as the track bends left, go straight on down the narrower path till you get to Wood Seats.

As you come out onto the road, turn left and find the footpath just to the left of the house, going through their garden. Follow this (watching out for the wood ants) until it re-joins the main track near the end of Sandy Lane. Follow the main track or take the path which bears left, they both go to the same place, meeting up after a few hundred metres, and head up the hill towards Woodhead Road.

As you approach the road, turn left along the track back towards the car park, past the trig point and as you start dropping down, turn right on a footpath towards the road; cross the road and return to the car park on the softer paths through Wheata Wood.

Risks

- Take care crossing Woodhead Road as it can be fast.
- No stiles!
- Footpaths (mud, slipping, tree roots, steps, etc).
- Bikes, horses and dogs
- Ant hills
