

Step Out at SWFC

The Wednesday Walk on Thursdays

68 – Lidl – 2.7 miles

In view of the predicted snow, a road walk. There is a fairly steep climb and a number of steps (quite a lot actually – I haven't counted them) down. Apart from the steps, this is the reverse of walk 35 (if you can remember it!)

Anticlockwise

This walk starts with the reverse of walk 65 (3 weeks ago), along Herres Road and through the Binsteads. Rather than name them all again, here's the simplified version.

From the stadium car park, turn left then right (Herres Road) then first left, first right and over the railway. Left at the end, then first right, first left, first right, first left, first right, first left and straight on to Southey Green Road. Turn left, first right (past my house), first left and cross Halifax Road at the crossing.

Straight ahead onto Lyminster Road, then when it bends right, take the first left (Carrville Road) and follow it to the viewpoint at the end. Once everybody has caught up, turn round and take the footpath on the right through to Gillott Road, cross over and down the steps to Fox Hill Road. Turn left, down to the traffic lights then right, past the funeral parlour and then take your favourite route back to the Stadium.

IF THE STEPS ARE SLIPPERY:

Instead of going down the steps, turn left then first right, right again and then left and right onto Halifax Road.

Risks

Crossing major roads and lots of side streets.
Steps may be slippery...
